Filament load/unload issues? MMU2 taking too much space? Not with this Universal Auto-Rewind spool holder! It keeps filament on the spool during unloading, up to four full revolutions.

The AMF files of the buildplates are included. The STL files are available for download on Thingiverse (<https://www.thingiverse.com/thing:3338467>) and the assembly instructions can also be found there.

Video compilation: <https://www.youtube.com/watch?v=03iUbhrU8xw>

This is the multi-material version. The single-material version is at <https://www.prusaprinters.org/prints/171-universal-auto-rewind-spool-holder-single-color>

Print instructions

Recommended colors for multi-material: 1st: silver grey, 2nd: any vibrant color, 3rd (stand only): white.
