Summary

Brighten up your spring with some tulips. Flower press-fits onto stem and base assembly.

Prints as 2 separate pieces that press-fit together.

Take note of which base to use. One of them has a slot for a gift card and the other does not.

The assembled height is about 10.5cm (4") tall. The base is 4cmx4cm or 1.5"x1.5"

The press-fit parts have 0% clearance so I'm hoping the whole thing should scale larger without problems but I have not tried this myself.

Updates

- 2022-08-14: Added v1.0.1 version of base with rounded edges
- 2022-05-03: Added new version of base with a slot for adding a gift card.
- 2022-04-16: Redesigned stem to use a simple taper. Increased the stem diameter in case the stem fits too loosely for some prints. Removed the test parts since they do not apply to the new design.
- 2022-04-14: Added chamfer to hole on the bottom of the flower so the stem would fit more easily. Added slightly more bevel to stem tip. Added 2 new files for testing the press-fit of the parts so you know if you need to scale anything before printing the whole model.
