The Allosaurus Head is a little more complex to print than many of my other animal heads because the teeth on the upper jaw require support. You may also want supports for the chin and above the eyes.

For similar models see my [Collection of Animal Heads/Busts](#) that I have designed or remixed. All of these designs use the same bracket to mount, making them interchangeable.

Mounting Options:

- **Bracket for Wall Mountings** - mounts firmly to wall with one screw (use top hole).
- **Modular Stand** - Print and press together a stand to put this on a table or desk.
- I've also included a small slot, so this can be hung on a wall with a nail.

One minute introductory video of my Bracket for Wall Mountings:

Enjoy and if you print one please post a make!

This remix is based on

Allosaurus Head
