Designed to attach to your keychain, it folds into a compact form when not in use.

Function

Simply unfold the stand to create a stable support for your phone. It allows both:

- **Vertical viewing** (e.g. scrolling, video calls)
- **Horizontal viewing** (e.g. watching videos)

Design

- **Foldable mechanism** for compact storage
- **Keychain hole** to carry it everywhere

Printing

- **No supports required**
- Single or Dual color

A simple but very useful tool to keep your phone upright wherever you go :)
