I wanted a small food type place that was of a decent size- a diner area and a kitchen; one that filled the build plate of my Mk3 Prusa, so be warned its a good size even in halves. In addition with my other interior sets and the ability to swap a fresh picture into the sign it can be many other small building business type things as well. The Staff is nearer to true scale 1/48 than most figures and pretty slight of build- if there is enough people wanting a 'heroic' version I may beef up a new set.

I use supports for a lot of things as it gets me the best results but the sign can be a pain to clean out the inside where the picture slides so I may cut the 'Sign' file into a part 1 and 2 as well like the fence- we shall see as I have other sign designs near done as well and I hate anything that takes hours to clean up lol.

EDIT- ADDED 'THICK' STAFF 2019-01-23

Much of the interior terrain is simple mods of my other interior scifi set as it already fit the part of fast food type furniture (ugly and chunky lol)
