Print your own gothic sci-fi ruin city.

Everything prints without support. Every level with a floor is separate with big pegs and holes to keep them aligned without glue.

A quick and easy method for painting them: <https://youtu.be/6VDqyn15hcc>

Access to all new models for \$2 per month

I have a subscription service on MyMiniFactory, a tribe. I make miniature wargaming and roleplaying game terrain for your home 3D printer.

All my new models for \$2 per month

* Early access while I work for \$5 per month

- * Merchant license for \$20 per month
- * Airdropped loyalty rewards gradually giving you access to my previous models
- * 50% off in my store for all tribe subscribers
- * Be part of our community by suggesting ideas and vote on what could be the next project
