BOM: Printed with **ROSA3D Starter PLA Black**

Having trouble deciding who pays for takeout, whose turn it is to empty the dishwasher, or if you should buy another spool of filament? Let fate decide with this funny, deeply embossed Yes/No decision dice!

It is a perfect little desk toy, a great conversation starter, and an awesome novelty gift. The text is deeply recessed into circular cutouts on each face, giving it a unique look while protecting the lettering from wear and tear when rolled on hard surfaces.

Key Features:

- **Instant Decision Maker:** The ultimate, analog solution to overthinking. Just roll it!
- **Deeply Embossed Text:** The recessed "YES" and "NO" faces create a bold, highly readable, and satisfying design.
- **Infinitely Scalable:** The simple geometric design scales perfectly in your slicer. Print it tiny for a pocket charm, standard size for your desk, or massively scaled up as a giant novelty paperweight.
- **Support-Free Design:** Optimized to print cleanly without any annoying support structures.

Printing Instructions:

- **Orientation:** Print flat, resting directly on any of the flat faces.
- **Supports: NONE.** The inset text and circular frames are designed to bridge nicely without the need for support material.
