Summary

I need a simple tripod for Insta360 camera selfie stick. So drew this.

I need a simple tripod for Insta360 camera selfie stick. So drew this.

You'll need:

- 3x M3 16mm screws to use without nuts
- 3x M3 22mm to use with M3 nylock nuts
- 1/4"-20 10mm camera mount screw

Print one hub and three legs. I printed in PETG with 8 perimeters. It holds 3m stick well enough to use indoor.
