Wooden Crates and Lumber

Even in the future, people need materials to build with. Plants, wood as the backbone of many a backward planet's building strategy. Wood is use to make exquisite furniture, paneled walls, and more. In the lower levels, its used to make the hovels and shanties that shelter the workers from the endless burning sun. Much of that comes from off world crates.

Build!

Get back in the Fight!

Designed on Tinkercad.

There are seven parts to assemble on the Attack Recovery Vessels.

- Four sizes - large to small.
- Lumber stack
- Four pieces of loose lumber
- Stack or glue, make a terrain pile.

Enjoy!
