Cactus pot made from Stretch Cat: <https://www.thingiverse.com/thing:974565>

Just scale to the size you want.

Altered so it can be printed with minimal supports, but does require them.

I put gauze over the hole in the bottom of the pot to stop the soil from going through.

The STL diameter of the pot is 23mm and a depth of 27mm.

This remix is based on
