Meet the Desk Goose!

A simple, cute, and minimalist goose designed to bring a little personality to your desk, shelf, workspace, or anywhere that could use a new feathered friend.

The model features a clean, smooth design with a white body, orange beak and feet, and small black eyes. It looks great as a multicolor print, but you can also print and customize it with your own color combinations.

Perfect for:

- Desk decoration
- Office setups

- Shelves and displays
- Gifts
- Goose lovers
- A fun and easy multicolor print
- Or just for you! :)

If you like this, please consider liking and following me! ♥

Note: This model can be scaled up to your desire. This model should also be printed with supports.

Sorry for not posting in a little while, I didn't forget about Printables!

Don't have a multicolor printer? Check out this model:
