Meet the **Ghost Pumpkin Clicker** – a cute Halloween-themed desk fidget featuring a happy little ghost popping out of a carved pumpkin.

It's small, fun to print, and gives a satisfying mechanical **click** every time you press it.

The model is designed to work with a **blue mechanical keyboard switch (MX-style / Cherry MX compatible)**, which gives it a crisp and tactile feel.

Perfect for:

- Halloween desk decor
- Cute spooky collections
- Fidget and clicker lovers
- Small seasonal gifts
- Desk toys

Assembly

- Print all required parts.
- Clean the model and remove any small imperfections.
- Insert **one blue MX-style mechanical keyboard switch** into the dedicated slot.
- Carefully fit the moving clicker part into place.
- If the fit is slightly loose, use **a tiny drop of glue** for a more secure assembly.
- Do **not** glue the moving part to the switch stem, so the click mechanism can still move freely.

Printing Notes

- Designed around a **blue MX-style keyboard switch**.
- Small tolerance differences may occur depending on printer calibration and filament.
- A little cleanup may be needed for the best fit.
- For the cleanest result, print with good cooling and stable first-layer adhesion.
