**Use tree supports on build plate only.**

The **Twisty Ghost Fidget Toy** is a cute Halloween-themed fidget shaped like a little ghost. Its body is made from **9 nested moving segments** that can be pushed and pulled up and down.

Move the individual sections to stretch and transform the ghost into all kinds of unusual shapes, or push them back together to return it to its compact ghost form. The segmented construction makes it satisfying to manipulate and fun to play with in your hand.

With its simple spooky design and cute expression, it also works perfectly as a small Halloween decoration.
