No brim or supports required.

The **Twisty Pumpkin Fidget Toy** is a fun Halloween-themed fidget made from **9 nested pumpkin segments** that can move independently up and down.

Push and pull the individual sections to transform the pumpkin from its compact shape into all kinds of twisted and unusual configurations. The moving segments make it especially satisfying to play with in your hand, while the pumpkin design makes it perfect for the Halloween season.

When the segments are returned to their original positions, they come together to form a cute little pumpkin complete with its stem.
