Hexa Beauty is a compact and stylish desktop organizer designed to keep makeup and cosmetics neatly arranged and easily accessible.

The organizer combines **open storage for bottles, creams, perfumes and makeup tools** with **four smaller drawers and one large drawer** for palettes, powders and other cosmetics. The front of each drawer features a distinctive **hexagonal opening**, which gives the design its characteristic look while also making the drawers easy to open.

The upper section is divided into different compartments, allowing you to organize products according to their size and type. Taller compartments are ideal for brushes, mascara and other long items, while the smaller front compartments are perfect for lip balms, lip glosses, tweezers and similar cosmetics.

The design has been kept **simple, clean and print-friendly**, with 3 mm walls and 1 mm chamfered edges for a more refined appearance.

The model is designed with **3D printing in mind**. Supports are required for some areas of the model, particularly around the sloped upper section.

Features

- 5 integrated drawers (four smaller drawers in two different heights, allowing you to organize cosmetics according to their size)
- Large bottom drawer for palettes and larger cosmetics
- Dedicated compartments for bottles, creams and perfumes
- Smaller compartments for makeup accessories
- Hexagonal drawer openings
- 3 mm walls
- 1 mm chamfers on the edges
- Designed with 3D printing in mind
- Supports required

A compact way to keep your everyday beauty essentials **organized, accessible and looking good on your desk or vanity**.

All what u need is your printer, no hardware needed, no glue, no magnets..
