This is a quick remix from one of the most used Raspberry PI 2/3 cases to fit the new Raspberry PI 4.

Original Design: <https://www.thingiverse.com/thing:922740>

I made the first design based on the uGreen micro-HDMI to HDMI adapter.
[Amazon.de](#)

The official raspberry micro HDMI cable has a bigger micro HDMI connector.

I added additional STL and step files to accommodate the bigger connector.

As I do not own the official micro HDMI cable I cannot confirm that it fits.
