Summary

Stackable Box

Household > Other House Equipment

Tags: box organizer decor

A practical and flexible storage system consisting of stackable boxes in three different sizes, created to bring order and clarity to everyday spaces. Each box follows the same clean geometry, allowing all sizes to stack securely and combine into a cohesive system.

For every box size, three different inserts are included. These inserts make it easy to adapt each box to different use cases – from organizing small tools and accessories to office items, hobby materials, or household essentials. The system is designed to grow with your needs while maintaining a calm, minimalist appearance.

The modular approach allows you to mix sizes and inserts freely while keeping a consistent visual language across the entire setup.

FEATURES

- Stackable storage boxes in three sizes
- Three insert options for each box size
- Modular system with consistent design language
- Suitable for desks, shelves, workshops, or living spaces
- Optimized for straightforward 3D printing
