Create Your Own. Make It Yours.

A unique and original **modular makeup organizer designed to be created your way.**

Because every woman is unique, your makeup organizer should be unique too. Build your own personalized organizer exactly the way you want it — choose the modules, combine them, and create a storage solution made specifically for you.

Thanks to its **modular design and simple yet secure connection system**, assembling and rearranging your organizer is easy, intuitive, and fun. Add new modules whenever you need more space or simply want to change your layout.

You can also **3D print each individual part in different colors, shades, and tones**, giving you endless possibilities to create a beautiful designer piece that complements your makeup collection and your interior.

Modular by Design

The basic building block is a **Single Box measuring 6 × 6 × 6 cm**. Every other module is based on this basic dimension, allowing the entire system to fit together seamlessly.

The boxes are available in two heights:

- **Low - 3 cm**
- **High - 6 cm**

They are available as **Single or Double Boxes**, and each module can be freely combined **side by side or stacked on top of each other**.

To make organization even easier, the system includes a range of specialized **inserts and top plates** designed for different types of makeup and beauty tools — including lipsticks, makeup brushes, palettes, and more.

Build It Your Way

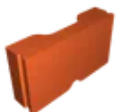

Start with a single box or create a complete makeup station. Mix different heights, widths, inserts, and colors to create a combination that perfectly fits your collection and your space.

Your makeup. Your style. Your organizer.
