WallArt - How to Train Your Dragon 002

Take to the skies and bring the magical world of How to Train Your Dragon to your wall!

This detailed WallArt is inspired by the unforgettable world of dragons, Vikings and epic adventures. The dynamic silhouette captures the spirit of friendship, freedom and adventure that makes How to Train Your Dragon such a beloved story.

Perfect for fans of Toothless and the How to Train Your Dragon movies, as well as dragon lovers and fantasy enthusiasts. It looks fantastic in bedrooms, gaming rooms, children's rooms, creative spaces, home cinemas, or as part of a larger fantasy and movie WallArt collection.

Classic black creates a powerful silhouette against a bright wall, but dark blue, metallic, silk, glow-in-the-dark or other decorative filaments can create some amazing fantasy-inspired variations.

Printing

My preferred settings for this WallArt are:

- Layer height: 0.28 mm
- Walls: 2
- Infill: 15%
- Supports: No

I prefer a 0.28 mm layer height for my WallArt models because the visible front surface is the most important part of the finished piece. This provides a great balance between appearance and printing time.

Scaling

You can scale the model to any size you prefer depending on your printer and available wall space.

For detailed WallArt designs like this, the larger you print it, the better it usually looks! Increasing the size makes the finer dragon shapes, outlines and smaller details much more visible and gives the finished artwork a stronger and more impressive presence on the wall.

Feel free to adjust the layer height, walls, infill and other print settings depending on your printer, material, chosen scale and personal preferences.

Mounting

I recommend using small pieces of double-sided adhesive tape to securely attach the WallArt to the wall. This makes installation quick and easy without drilling or screws.

If you print it, I would love to see your make! ♥

Happy printing!
