Official Reference CAD Envelopes for Logitech Keyboards

Provided as part of **Logitech's Adaptive & Accessibility Initiative**, this package contains simplified 3D reference models (dummy CAD envelopes) for three of our flagship keyboards:

- **Logitech MX Keys**
- **Logitech MX Mechanical**
- **Logitech Craft**

Design Considerations:

- **Outer Bounding Geometry:** Represents external chassis contours, top-bar clearance, and overall footprint.
- **Non-Destructive:** Please design attachments that clip onto or slide under the keyboard. Do not attempt disassembly.

By downloading these 3D files and/or modifying your Logitech product with 3D printed parts you assume all risk outlined in our legal disclaimer

Logitech Legal Disclaimer:

- By downloading any CAD files provided on this page or by submitting any entries to this competition, you agree to the terms of this disclaimer.
- Summaries, links and CAD/3D printing files made available on these pages - including parts that you print yourself or have printed for you by a third party (such as mounts, supports, assistive attachments, add-ons and other accessories) are not official Logitech products and Logitech does not endorse, guarantee, or support any of these products, designs or files. Use or print these files entirely at your own risk.
- Logitech disclaims all liability for any personal injury, property damage, or device damage resulting from the use or printing of these files.
- Any permanent modifications made to your Logitech device could void the product warranty. Logitech also disclaims all warranties related to any third party designs, including all claims related to intellectual property infringement, such as copyright, trademark, and patent.
- You are responsible for reviewing the terms, conditions and privacy policies of the sites where any independent designs are hosted, as these will govern their use.
- By submitting ideas or files to this competition, you grant Logitech a non-exclusive, royalty-free license to display and share your submission for promotional and contest-related purposes.
