Summary

Coiled cobra wrapped around a tealight well, hood flared over the flame. Print-ready 3MF included.

[Household](#) > [Home Decor](#)

A cobra coiled around a tealight well with its hood flared over the flame. The light catches the underside of the hood and the scale texture on the coils, and throws the snake's shadow out across whatever it is sitting on, which makes it a good centrepiece for a dark shelf or a Halloween table.

The coil forms the base, so the piece is wide and stable, and the well takes a standard tealight cup flush rather than perched on top.

Print settings

- Layer height: 0.2 mm
- Infill: 7%
- Supports: tree (auto)
- Nozzle: 0.4 mm
- Material: PLA
- Sliced for Bambu Lab A1 mini

The included 3MF is sliced and ready to print. Tree supports are needed under the raised hood. Black or dark bronze suits it best. PLA softens with heat, so use an LED tealight if it will be left burning.
