Bring a cozy, modern touch to your space with this set of mushrooms! Designed with a stylish contrast between smooth curves and a rich, woven rope-like texture, these mushrooms are perfect as desk decor, shelf accents, or seasonal indoor styling.

To ensure the best surface finish and zero waste from supports, each mushroom is split into two separate parts: the Cap and the Stem.

- **No Supports Required:** Print both parts flat on the build plate for flawless top and bottom surfaces.
- **Easy Color Customization:** You can easily print the cap and stem in different colors without needing a multi-material system (MMU/AMS).
- **Assembly:** After printing, simply apply a few drops of superglue (CA glue) or epoxy to the joint interface and press the stem and cap together for a few seconds.

Layer Height: 0.2 mm

Filament: PLA or PETG

Scalable: Yes
