Summary

A stylish and modern holder for your kitchen tools

Household > Kitchen

Tags: modern kitchentool spoonholder

Hi there,

If you search a new holder for your kitchen tools in a modern look, this is for you.

Print very easy without support.

I used 0.2 mm layerheight and an infill of 15%.

I recommend to print it in PETG.

Its about 16cm height and it have place for all your tools.

You can scale it if you want.

Thanks have fun.
