This creepy hand features a chunky Frankenstein-inspired design with **stitched details, scars, fingernails, and the classic bolts on the sides**. The fingers are fully articulated, giving the hand plenty of movement and making it fun to pose, wiggle around, or use as a spooky Halloween display piece.

The **main hand prints articulated**, while the **two side bolts print separately** and need to be **glued into place after printing**. A tiny bit of glue is all you need to finish the model.
