updated 27. 9. 2026 | published 27. 9. 2026

Summary

A simple TPU Steam Frame lens protector I created to keep dust and possible scratches away from the device's lens.

Gadgets > Virtual Reality

Printed in TPU 95A. The slower the better usually. Needs no supports, printed myself at 0.20 mm height. Modeled in Fusion while creating a mount for prescription lenses.

Model files

lens-cover.3mf

lens-cover-1mm-gap.3mf

Update with 1mm gap and double thickness of the flat cover material
