Forest Animals & Woodland Adventure Set

Step into a magical woodland world with this charming forest-themed collection. Filled with beloved woodland animals, cozy forest shelters, natural treasures, and traditional countryside elements, this set captures the beauty, mystery, and adventure of life in the forest.

Featuring a friendly hunter, curious hedgehog, cozy tree stump hideaway, clever fox, playful squirrel, wise owl, mysterious wolf, mighty bear, wild boar and mini boar, traditional hay-rack, and a wonderful collection of forest treasures including pine cones, leaves, boletus and amanita mushrooms, acorns, beechnuts, chestnuts, and meret.

The collection also includes a woodpecker , shy badger, adorable rabbit , graceful roe deer, majestic deer , and a sweet baby deer — bringing together many of the fascinating animals and natural elements found in European forests.

Perfect for imaginative play, Montessori activities, storytelling, nature-themed learning, decorations, gifts, or woodland collections, this enchanting set invites children to discover the forest, learn about its inhabitants, and create their own magical outdoor adventures.

Forest & Woodland Facts

- Forests cover around one-third of the world's land area and provide habitats for an incredible variety of plants and animals
- Foxes are highly adaptable animals and can live in forests, fields, mountains, and even near towns
- Squirrels often collect and hide nuts and seeds, helping spread new trees throughout the forest
- Woodpeckers use their strong beaks to search for insects hidden beneath tree bark and create nesting holes
- Hedgehogs are mostly active at night and use their excellent sense of smell to find food
- Deer communicate using sounds, body movements, and scent markings, especially during the breeding season
- Wild boars have an excellent sense of smell and use their snouts to search through the forest floor for roots, nuts, insects, and other food
- Mushrooms play an important role in woodland ecosystems by helping break down organic material and recycle nutrients

Woodland Adventures & Forest Discovery

- Inspired by peaceful European forests, autumn woodland walks, mysterious forest clearings, and magical nature adventures
- Combines forest animals with leaves, nuts, mushrooms, pine cones, and other natural treasures found on the forest floor
- The tree stump hideaway creates a perfect little shelter for imaginative animal adventures and storytelling
- Perfect for stories about forest exploration, animal families, hidden woodland homes, changing seasons, and discovering nature

- Brings together familiar forest animals and traditional countryside elements such as the hay-rack, creating a charming connection between woodland and rural life
- A playful and educational collection designed to encourage curiosity, imagination, nature exploration, and a love for the wonderful world of forests
