This adorable model features Snoopy Halloween – the beloved dog from the Peanuts comic strip – lying down, making it a perfect decorative piece to mount on a light switch or electrical outlet.

Mounting:

The model is designed for easy installation using a simple wedge that can be slid between the wall and the switch or outlet frame. No glue is required – the setup is quick, and the decoration is easy to remove or reposition.

Dimensions:

The model is sized to fit standard frames, but it can easily be rescaled in your slicer if needed.

This 3D model is created solely for educational, artistic, and personal use.
