A clean, ergonomic, and sturdy cable holder specifically designed for the **IKEA Skådis** pegboard system.

The curved cradle design prevents sharp bends and long-term strain on your cables, making it ideal for USB-C, Lightning, power leads, headphones, and setup wiring.

Do you like this design?

Community support is what turns ideas into new free files (and keeps my printer fed with filament!).

- **Leave a Like:** It costs nothing, prevents wet filament, and motivates me to keep designing!
- **Share a Make:** I love seeing my designs printed in wild colors and fancy filaments.
- **Follow Vinors3DLab:** Hit that Follow button so you don't miss upcoming releases, extra modules... and to keep the algorithm happy!

Recommended Print Settings

- **Orientation:** Print on its **side** for maximum layer strength along the hooks.
- **Infill:** At least **30%** (Gyroid or Grid recommended for optimal structural rigidity).
- **Wall Loops / Perimeter:** 3 walls minimum for extra hook durability.
- **Supports:** **Yes**, required for overhangs. Enable Normal (Auto) or Tree Supports touching the build plate only.
- **Layer Height:** 0.20 mm or 0.16 mm for smooth curves.
- **Material:** PLA, PETG, or ABS (PETG recommended for flexibility and long-term durability).

Features

- **Custom Fit:** Locks securely into standard IKEA Skådis slots.
- **Cable Friendly:** Smooth, rounded support surface eliminates tight bends.
- **Clean Aesthetic:** Sleek, minimalist design matching your desk setup.

If you like this design, please consider leaving a like, posting a make, or sharing your setup! Happy printing!
