Build your own little ghost crowd! This collection includes nine draped-sheet ghosts, each with a different expression, from a cheerful smile and heart-shaped eyes to an angry glare and a dramatic scream.

Display them on a shelf, decorate your desk, or gather the whole group for a Halloween table display. Each ghost is a single-piece hollow model with an open underside and cut-out facial features. No assembly is required.

The cover photo is unedited — that's the real glow of glow-in-the-dark PLA!

Nine faces included:

Surprised

Happy

Angry

Heart Eyes

X Eyes & Smile

X Eyes & Wavy Mouth

Dizzy

Wink

Scream

Files included:

Nine individual STL files: choose your favorite expression or build your own mix.

ghosts_all_plate.stl: all nine ghosts in a 3 x 3 arrangement, with no connecting base.

Dimensions at original scale:

Each ghost: approximately 65 x 54.5 x 61.2 mm (width x depth x height).

Full arrangement: approximately 207 x 175.4 mm, laid out for a 220 x 220 mm build plate. Allow extra room for any brim or skirt.

Printing notes:

The files are oriented upright with their lowest points on the build plate. Keep the supplied arrangement when importing the full-plate STL; use the individual files if you want to rearrange or print fewer ghosts. The full set should be sliced for printing all objects by layer, rather than sequentially one object at a time.

The models already contain their hollow interiors. Check the layer preview, bed contact and support requirements in your slicer, especially around the uneven hem, face openings and inside the head.
