Bin serves as an extension of the pegboard.

Use the appropriate model for your pegboard (Skadis or 1/4" round)

-- Update --

- Updated Skadis model ("v2") to include blends.
- Added models for both round and Skadis versions without rear hooks. Easier to print and you can use existing hooks. The bins won't be flush with the boards, though.

-- Update 2 --

- Updated round model ("v2") to have smaller upper hooks for easier installation.
