This simple remix puts the hub/buffer combo from BoxTurtle v1.1 into the NightOwl.

Grab the BT1.1 hub from Printables (follow the assembly instructions from there): <https://www.printables.com/model/1849107-boxturtle-v11-hub-buffer-combo/remixes>

BOM: 2x Heatset inserts ("Voron standard" 3x4x5), 3x M3x8 screws (SHCS or BHCS, your preference) for the hub mount. Re-use the screws for the skirt (no additional BOM)
