Mini Bench Vise | Compact Desktop Clamp

**A compact and practical mini bench vise designed for light-duty clamping, hobby work, electronics, model making and small workshop tasks.**

This desktop vise is ideal for holding small parts securely while sanding, gluing, assembling, repairing or working on precision projects. Its compact size makes it perfect for a desk or small workbench.

### Features

- **Compact mini bench vise design**
- **Smooth screw clamping mechanism**
- **Textured jaws for improved grip**
- **Easy and quick assembly**
- **Lightweight but practical construction**
- **Ideal for holding small parts**
- **Designed for hobby and precision work**
- **Easy to print with FDM 3D printers**

## Perfect for

- Model making
- Electronics repair
- Small assembly work
- Hobby projects
- Gluing and sanding
- Holding small components
- Desktop workshop setups

The compact desktop clamp is designed to provide a simple and convenient way to secure small parts without taking up much workspace.

If you print the model, feel free to share your make and leave a rating.
