Japandi Vase - Yorisou

Meet the **Yorisou**, a beautiful vase designed for lovers of the minimalist Japandi aesthetic. Its organic, intertwined design symbolizes a gentle hug, while the elegant ribbed texture creates a stunning play of light and shadow in any room.

Please note: This is a Vase Mode print and is therefore NOT watertight. It is specifically designed for dried botanicals like pampas grass, cotton branches, and bunny tails. However, if you want to use fresh flowers, you can easily place a standard water glass or a glass test tube inside the vase!

This model is optimized to be printed in **Spiral Vase Mode**, meaning it prints incredibly fast, seamlessly, and with minimal material!

- **Perfect for Dry Botanicals (or a glass insert):** Tailor-made for your favorite dried floral arrangements, or pop a glass inside for fresh ones!
- **Lightning-fast printing:** Thanks to Vase Mode, this vase will be on your table in no time.
- **Seamless design:** No visible Z-seam, just a perfectly continuous outer surface.
- **Zero supports needed:** Download, slice, and print directly.

Did you print the Yorisou? I would love to see how it looks in your home! Please share a photo of your make and leave a rating.
