Minimalist Bird Feeder – Hanging or Wall Mounted

Bring nature closer to your house with this minimalist, house-shaped bird feeder, designed for gardens, balconies, patios, and outdoor spaces.

The model comes in two mounting versions, so you can choose the one that best suits your needs.

Two mounting options:

1. Hanging version

Features dedicated holes for hanging rope or cord

Perfect for tree branches, hooks, pergolas, and balcony structures

Easy to hang wherever birds can safely visit

2. Wall-mounted version

Features mounting holes in the back wall for screws

Can be attached to a wooden post, wall, fence, or other suitable surface

Alternatively, it can be mounted using suitable adhesive or double-sided acrylic mounting tape, depending on the surface and conditions

Features:

Minimalist house-inspired design

Open tray for mixed birdseed

Two mounting options in one design

Suitable for gardens, balconies, patios, and backyards

Simple, modern appearance

Designed for small wild birds

3D printing recommendations:

Material: PETG recommended for better outdoor durability

Layer height: 0.2 mm

Installation note:

Choose the mounting method according to your installation surface. When using adhesive or acrylic mounting tape, make sure it is rated for outdoor use and can support the feeder's weight, including the birdseed. Screws or a secure hanging cord are recommended for more demanding outdoor conditions.

Fill it with birdseed and enjoy watching your feathered visitors!
