Stylish Door Stopper with Holder

A door stop that does its job without looking like an afterthought.

I designed this one with a clean, modern shape and a ribbed surface for extra grip.

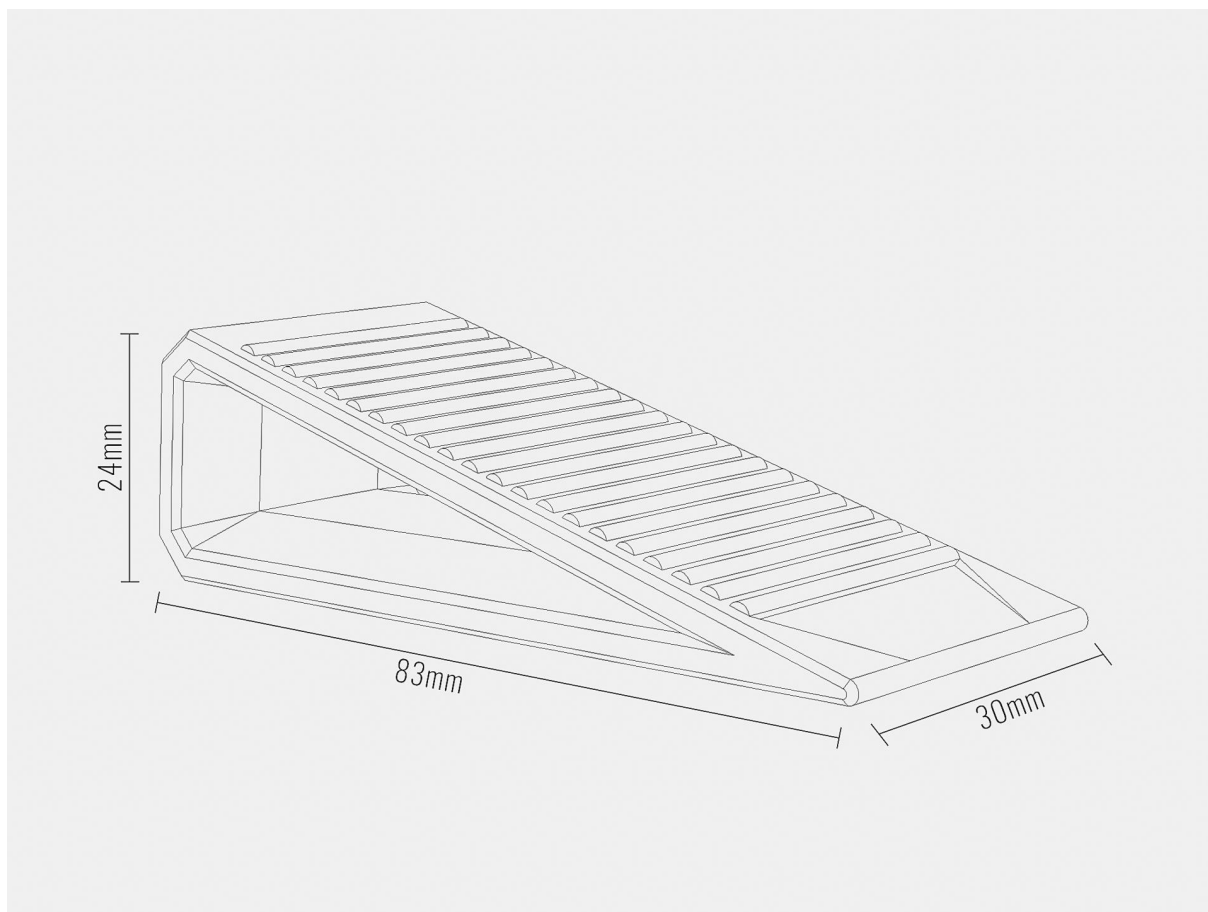

Printing:

- **0.2mm layer height**
- **3 walls**
- **15% Gyroid Infill**
- **2 Colour version, just add a colour change**
- **TPU version prints in 2 parts, TPU Base and Stopper**
- **Simple version no TPU Base, both sides the same**

I also included 2 holders for attaching the door stop to the door:

- **Screw mount** – designed for 3 mm screws.
- **Adhesive mount** – attach it using double-sided adhesive tape or glue.

Simple, functional, and a little more stylish than the usual door wedge.

Notes:

- All photos uploaded are of the actual printed model, and are copyright protected
