Tags: [lens](#) [frame](#) [steam](#) [zenni](#) [steamframe](#)

Added more clearance for nose and removed all plastic from eye tracking area.

I dabbed some glue on the lenses to keep them in place, and a small amount of hotglue on the notches to grip the frame. Can be removed easily after the hot glue dries.

Ensures clearance for illuminators.

This remix is based on

Zenni Quest 3 Lens Adapter for Steam Frame
