Keep your pneumatic tools organized and always within reach!

This wall-mounted holder is designed for air compressor tools such as impact wrenches, air ratchets, blow guns, tire inflators and die grinders.

The holder keeps your workshop clean and prevents pneumatic tools from being left on the workbench or floor. Multiple holders can be installed side by side to create a dedicated pneumatic tool storage wall.

Features:

- Designed for pneumatic / air compressor tools
- Wall-mounted design
- Keeps tools organized and easily accessible
- Great for garages and workshops
- Easy to print and install
- Can be combined with multiple holders
- No supports required

Perfect for anyone building a clean and organized workshop or garage setup.

Print one for each pneumatic tool and create your own custom tool wall!
