Christmas Tree Decoration Set - 2 Minimalist Christmas Trees

Bring a modern and festive touch to your Christmas decoration collection with this **set of two minimalist Christmas trees**.

The set includes two different designs:

- **Loop Tree** – an elegant tree made from flowing loops, topped with a star.
- **Zigzag Tree** – a simple geometric Christmas tree with a star topper.

Both models feature a **stable integrated base**, making them perfect for shelves, tables, desks, mantels or Christmas displays.

Designed with FDM 3D printing in mind:

- No supports required
- Easy to print
- Minimal material usage
- Stable base
- Simple, modern shapes
- Great for Christmas decorations and seasonal displays

You can print them in traditional **red and green**, or experiment with different colors and filament combinations.

Printing suggestion: PLA works especially well for these decorative models.
