The Repeater Pro Barrel Collet is a 3D-printed muzzle upgrade designed by Perry for the Dart Zone Max Nitroshot+ Repeater Pro lever-action blaster. Featuring, a two-piece O-ring clamp this mod part makes performance tuning easier with quick, convenient barrel swaps. Additionally, the replacement front end installs near-toollessly with the original twist-lock BCAR moun. For safety and compliance, these parts will always be printed in OOD Orange filament.

FEATURES:

- Repeater Pro Barrel Collet
- 3D-printed barrel swap upgrade
- Easier performance tuning
- Printed in OOD Orange
- Easy to install!
- Designed for the Dart Zone Max Repeater Pro
- Compatible with barrels 300 mm (~12in) or longer

- Partially compatible with 250mm (~9in) barrels
- **Not** compatible with the stock 210mm barrel

*The 390mm barrel does not stick out far enough to accept rifling attachments.

PERFORMANCE:

Average FPS (Standard Deviation)

- 153 (6) FPS with included 1.7 x 205mm spring + 12.9 x 210mm barrel
- **~205 FPS with 1.9 x 205mm spring (cut) + 13 x 300mm barrel**

FILES INCLUDED:

- 1 Repeater Pro Collet Receiver
- 1 Barrel Collet Key

HARDWARE NEEDED:

- 1 **14mm OD O-ring**

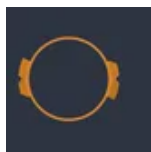

RECOMMENDED PRINT SETTINGS:

- Quality: No scarf seams or joints
- Strength: 4-5 wall loops
- Others: Inner brim for better bed adhesion
