Summary

Fan-Made Insert for Ascension Tactics & Inferno grouped in one box

[Hobby & Makers](#) > [Organizers](#)

Tags: [boardgame](#) [vertical](#) [insert](#) [ascension](#)

This insert is designed to organize and allow for quick setup and storage of the various components of **Ascension Tactics** and **Ascension Tactics Inferno** in a single box, while allowing for quick setup and easy storage.

All card holders are designed to store sleeved cards (up to 100µm).
The photos show the storage with the official premium sleeves.

You can use whichever game box you prefer, **Tactics or Inferno**, as both boxes have the same dimensions.

The box can be stored vertically, with **no lid lift** when it is closed.

I own the miniature versions of both games, as well as the neoprene playmats, so:

- I don't use the game boards, which is why I store them at the bottom of the box. You can also store them on top, either with or without the "**corners**" to keep them in place.

- The same applies to the standee bases. I simply leave them loose at the bottom of the box, but they can also be stored on top in zip-lock bags.

Insert Specifics:

- The text on the cards holder is in English.
I'm french and Inferno doesn't exist in french
- You don't need to use the game board corners, but if you want to keep the game board securely in place, you can use either **one "corner0"** or **four "corner1"** pieces.
I prefer the "corner0", as it leaves more room for the standee bases.

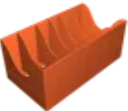

Slicer Specifics:

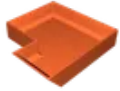

- All the parts are optimized to be printed with:
 - Nozzle: 0.4
 - Layer height: 0.2 (including the first one)
 - Outer & Inner Walls: 115% (or 0.46mm)
 - Wall loops: 3-4
 - Infill density: 10%

Enjoy! and don't forget to Make Your Life Easier
