Summary

Parametric 3D-printable base for a DIY Advent wreath with four candle cups for 20 mm candles.

[Seasonal designs](#) > [Winter & Christmas & New Year's](#)

Base for a DIY Advent wreath: a ring with four candle cups (20 mm candles/tealight-sized). Decorate with fir twigs, ribbon or baubles.

Designed in CadQuery (parametric). This is an unprinted prototype – please test fit first and scale if needed. Print without supports.
