I designed this Gridfinity bin for my Royal Talens Ecoline water color bottles (30ml) which have a diameter of 45mm. The holes are 30mm deep.

Since the Ecoline bottles are taller then the 6u bin, it's not stackable with them inside. But if you use it for other stuff it has a lip for stacking.

Size: 3x4 units, 6u high.

Default setting and no supports needed.
