## Summary

Wizard and magic style: a Halloween fantasy set created for magic-world builds

Seasonal designs > Autumn & Halloween

Tags: halloween halloweendecoration 3dprint

### Wizard

Wizard and magic style: a Halloween fantasy set created for magic-world builds, RPG characters, and spell props. Featuring carved magic wands, owls, spellbooks, and magical energy orbs, this collection infuses your models with detailed, realistic textures and an enchanting atmosphere.

### Recommended Materials

· **eSUN PLA-Basic** (Purple)

· **eSUN PLA-Luminous** (Blue)

· **eSUN PLA-Silk** (Gold)

· **eSUN PLA-Wood** (Walnut Wood)

**Recommended Print Settings**

·**PLA-Wood Nozzle Requirement:** Must use a $\ge$0.5 mm or 0.6 mm nozzle. Strictly avoid 0.4 mm nozzles to prevent severe clogs.

· **PLA-Wood Temperature:** Keep the printing temperature between 190–200°C; higher temperatures can cause the wood particles to scorch and discolor.

· **Nozzle Wear Warning:** Both glow-in-the-dark and wood filaments are highly abrasive to standard brass nozzles. Using a hardened steel nozzle is strongly recommended.
