I designed a cover for the K2 Singlehook 3s long. My garage roof is relatively flat and so the silver aluminum hooks are visible from below. That's the reason I designed a clip on cover for the hooks. For comparison I added a photo (with the ladder) where 2 hooks already have the cover on and two hooks are in the original state.

Printed in ASA and in the orientation seen on the photo from the printbed. Maybe it will also work in a different orientation.

If you like my designs, you can buy me a coffee on Ko-fi!
