updated 8. 10. 2026 | published 8. 10. 2026

Summary

Sphere made of two parts that connect with a thread.

Tags: [ball](#) [thread](#) [sphere](#)

The sphere is designed to have a diameter of 10cm. I don't know for certain if the thread works when you scale it up.

The halves screw into each other pretty smoothly. I just use it as a fidget toy:)
