Tags: [pin](#) [skadis](#) [cork](#) [scadis](#)

A small frame for attaching an 80x80 mm corkboard on a Skadis.
You can use it for displaying pins or sticking notes on it.

You can choose between 2 versions:

Version A with a flat upside to glue the two parts together.

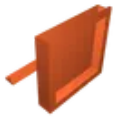

Version B with notches to click the two parts together.

You also need a 10 mm thick corkboard, which can be found in any tool store.

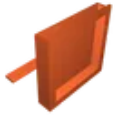

Cut an 80x80 mm piece out and put it inside the frame.

Hope you will find this simple print useful :)
