Summary

A 1x3 Gridfinity bin to hold six of Geoff's tarp clips standing on end in a drawer.

Designed to hold six of Geoff's tarp clips in a small footprint gridfinity bin. Bin with dividers built using the Gridfinity Generator website: <https://gridfinitygenerator.com/en/box>

To fit in the smallest footprint (1x3 gridfinity units), I alternate the heights of the clips' sliding locks to nest closely together.
