Meet Chippy the Cheeky Hamster, a playful little Scrub Daddy Holder designed to bring adorable countertop charm straight to your sink.

With his round puffed cheeks, tiny ears, and surprised little expression, Chippy turns your everyday Sponge into an irresistibly cute kitchen companion. The sponge fits securely in the top opening, keeping it upright, accessible, and neatly in place between uses.

A fully integrated drainage system is built into the design. Water flows through the internal channel and exits through Chippy's mouth, helping reduce water buildup and allowing your sponge to ventilate more efficiently.

The model can safely be scaled up if desired. Downsizing is not recommended, as the internal dimensions are optimized to properly fit a standard Sponge sponge.

Important Printing Note

If you are not using the provided Bambu Studio file, set supports to “build plate only.”

Do not allow automatic supports everywhere, as supports may generate inside the internal drainage channel.
