Meet Maisie the Sheep, a fluffy little Scrub Daddy Holder that brings farmhouse charm straight to your sink.

With her curly wool texture, rounded shape, and sweet expression, Maisie turns your everyday Sponge into a cozy countertop companion. The sponge fits securely in the top opening, keeping it upright, accessible, and neatly in place between uses.

A fully integrated drainage system is built into the design. Water flows through the internal channel and exits through Maisie's mouth, helping reduce water buildup and allowing your sponge to ventilate more efficiently.

The model can safely be scaled up if desired. Downsizing is not recommended, as the internal dimensions are optimized to properly fit a standard Sponge sponge.

Important Printing Note

If you are not using the provided 3mf file, set supports to “build plate only.”

Do not allow automatic supports everywhere, as supports may generate inside the internal drainage channel.
