Adjustable IKEA SKÅDIS Roll Holder

A simple and flexible roll holder designed for the IKEA SKÅDIS pegboard.

The holder consists of **two independent brackets** that can be positioned at different distances from each other. This allows you to adjust the width to fit different rolls — from **toilet paper to wide paper towel rolls**.

Features

- **Adjustable width** — position the two brackets as close or as far apart as needed.
- **Works with different roll sizes** — use it for paper towels, toilet paper and other rolls.
- **Easy roll replacement** — simply pull the roll sideways to remove it.
- **Prints without supports** — both brackets are designed for support-free printing.
- **Easy to install** — attaches directly to IKEA SKÅDIS.

One design, multiple uses

Keep the brackets farther apart for a large paper towel roll, or move them closer together for a standard toilet paper roll.

The same pair of brackets can be reconfigured whenever you need a different roll size.

Recommended print settings

- Layer height: **0.2 mm**
- Supports: **Not required**
- Print orientation: **as provided**

If you will have any issues, please, drop me a line

P.S.

I have updated files to change thread for bigger one.
